FORMAT

Round Robin Fourball Match Play
Each segment will be 5 weeks in length to allow all teams face each other in the flight. After a segment ends, the top two teams in each flight will be awarded prizes in the form of golf shop credit.

NEW FOR 2022!

At the end of each segment, we will recalculate the flights! This will give participants a chance to compete against more than just five teams throughout the season.

It also means that participants are not just competing against their flight, but against all of the teams in the league. At the end of the season, we will recognize the top 10 teams (in the form of total points) with additional golf shop credit prizes.

SCORING

Each hole won is worth 1 point, each hole halved is worth 0.5 points. There are no negatives. Teams who win their match will receive a bonus point and when two teams tie the match, they each will receive a bonus half a point. The sum of each match's score should always equal 10 points.
